

# Ostseebad Ückeritz

on the island of Usedom

## Information about the campsite

**Facility/location/pitches:** The natural campsite, set amongst protective coastal woodlands, stretches for almost 3 miles along the Baltic coast from Ostseebad Ückeritz towards Bansin, running parallel with the beach. The German Tourism Association has given our site an official 4-star rating. It has a total capacity of 750 pitches and because it is so long, it is divided into 7 areas, some of which have marked pitches.

**Disabled facilities:** There are accessible washrooms with WC, shower and sinks in the site areas "Erlengrund" and "Wanderlehrpfad". There is disabled beach access with WC and car parking at access point "4X".

**Bungalows/holiday apartments and houses:** The campsite has 3 bungalows and a holiday apartment available in the "Kiefernwaldchen" area. For more information, please go to our website [www.campingplatz-ueckeritz.de](http://www.campingplatz-ueckeritz.de) or [www.ueckeritz.de](http://www.ueckeritz.de).

**Shops/catering:** There are two shops on the campsite and you can find more in the resort of Ückeritz. A mobile "break-fast service" tours the site every day offering fresh rolls. You can eat and drink at several restaurants and snack bars on the campsite and along the promenade. There are also some small souvenir shops on the promenade.

**Dogs:** Dogs are permitted providing certain regulations are observed. They must be kept on a lead and they may be taken only on designated zones of the beach. Dog waste facilities are provided. Dogs are ONLY permitted in those zones.

**Health care:** There is a GP surgery and a dental surgery in Ückeritz. The nearest chemists are in Koserow and Bansin.

**Opening hours/bookings:** The site is open from Easter to late October every year. We do not open the entire area in the off-season. You do not have to pre-book, but we recommend that you do so during holiday season.

**Parking/traffic:** In areas with marked pitches, you can park your vehicle on the pitch. In open areas, park where indicated. The road running through the campsite is not open to the general public. It is only used by guests, cyclists and staff.

**Reception/post:** This is where you register upon arrival/departure. You can pay for your stay in cash or EC (debit) card. This is also where you get shower tokens, information, ideas for excursions, cycle maps and small souvenirs for all the family. You can pick up any post from Reception. (Please ensure your post includes the number of your pitch if you know it.) You can post mail at a letter box near Reception.

**Services:** There are plenty of power points (for adapters with a CEE plug/16 A). Please bring an extension lead of sufficient length (30 – 50 m) for this purpose. There are communal taps that provide drinking water. There are 7 toilet blocks with showers/WC and washing-up facilities. Areas for cooking and areas with washing machines/dryers are also available.

We offer a TV connection to guests in the "Erlengrund" and "Am Wanderlehrpfad" areas who have their own satellite system, but are struggling to get good reception. To use it, you need a cable with a standard F connector. There is free wifi in the Reception area.

**Beach/swimming/leisure:** The beach is flat and bright, with fine sand. It is broad and slopes gently into the sea, which makes it very suitable for children and non-swimmers. For your safety, lifeguards monitor the beach towards the front of the site. The water quality for bathing is analysed every month and is classified as 'good to very good'. Naturist sections are signposted. Information about events and leisure options is available from Reception and the Kurverwaltung. There are children's playgrounds in the "Erlengrund" area and on the promenade.

## Excursion ideas:

- The rock garden at the Neu Pudagla Forestry Office
- 'Waldkabinett' forestry centre at the Neu Pudagla Forestry Office
- "Wockninsee" nature reserve with nature trail
- Climbing adventure at the Neu Pudagla Forestry Office

### Birkengrund (BI)

- Long-term camping only
- Naturist beach between access points A and K
- Dog beach right of access point A

## Welcome to the “Am Strand” Natural Campsite in Ostseebad Ückeritz

The Ostseebad Ückeritz, one of the four amber resorts on the island of Usedom, is located on the narrow strip of land between the Baltic Sea and the Achterwasser lagoon. It is the most densely forested resort on the island, offering guests a wonderful nature paradise. The thatched houses by the lagoon tell of the resort's origins as a small fishing and farming village which gradually expanded towards the Baltic as sea-side visitors came in increasing numbers. This is the idyllic location for one of the largest and most picturesque campsites on the island – the “Am Strand” Natural Campsite. Just yards away from the almost pristine beach, you can enjoy the sunshine and listen to the sea. Far from the bustle of everyday life you can relax, breathe in the healthy sea air and regain your strength. A holiday at the Ostseebad Ückeritz natural

campsite offers something for everyone. While families appreciate the fine, white, sandy Baltic beach, the flat Achterwasser lagoon is an El Dorado for surfers and kites. Whether you are an enthusiast or a curious beginner, it is the ideal location for everyone. There are plenty of walking routes for our guests. There is a beautiful nature trail around the Wockninsee lake conservation area. Another path takes walkers along the coast on the so-called “natural promenade” with views of the sea. Given its central location, Ückeritz is also the perfect place to begin exploring the island by bike. Ückeritz also has two harbours for sailing enthusiasts. At Stagnieß harbour you can set off on a trip across the Achterwasser lagoon or enjoy a glass of wine as you watch the evening sun immerse the lagoon in an orangey-gold glow.

We look forward to your visit and hope you have a relaxing holiday!
